

FLORA OF HANTS.

SW
 H. PUREFOY FITZGERALD, M.C.S.

The following are a few new localities for some of the more uncommon plants; to be added to Townsend's "Flora of Hants." The numbers apply to the divisions of the county, made in the above work:—

1	<i>Adonis autumnalis</i> ...	VII. I. Fields at Gódsfield	
2	<i>Dianthus armeria</i> ...	VII. I. Preston Candover	+
3	* <i>Geranium phæum</i> ...	XI. Bramley	
4	<i>Frankenia laevis</i> ...	" N. Wight (1). Base of cliffs in Scratchell's Bay; Rev. G. E. Smith (B); but now extinct, from the falling of the cliff." (Townsend.) I found this plant on the top of the cliff just above Scratchell's Bay in 1885; it is likely to remain unmolested, as no one excepting the soldiers are now allowed to enter the fort, which is situated at the Needles Point.	
5	<i>Genista Anglica</i> ...	VII. I. Preston Down	+
6	<i>Medicago Sativa</i> ...	IV. I. N. Wight. Totlands Bay	
		XI. Sherfield	
7	<i>Trifolium hybridum</i> ...	IV. I. N. Wight. Totlands Bay	
8	* <i>Trifolium resupinatum</i> ...	III. I. Keyhaven	
9	<i>Lathyrus palustris</i> ...	IV. I. N. Wight. Golden Hill Fort	
10	<i>Spiræa filipendula</i> ...	VII. I. Abbotstone Down	
11	<i>Sedum telephium</i> ...	XI. Sherfield	
12	<i>Sempervivum tectorum</i> ...	XI. Sherfield	
13	<i>Antennaria dioica</i> ...	VII. I. Northington Down	
14	<i>Cichorium Intybus</i> ...	VII. I. Bradley. "VII. I. Absence remarkable Pryor. I have seen it near Winchester." (Townsend)) +
15	<i>Pyrola minor</i> ...	VII. I. Spybush, near Abbotstone	
16	<i>Monotropa hypopitys</i> ...	VII. I. Preston Candover	
17	<i>Vinca major</i> ...	VII. I. Plantation, Preston Candover. Apparently wild. "VII. I. Only as a straggler from gardens; Pryor." (Townsend)	+ *
18	<i>Gentiana campestris</i> ...	VII. I. Preston Candover	
19	<i>Cuscuta Europæa</i> ...	XI. Sherfield	
20	<i>Atropa belladonna</i> ...	XI. I. Sherfield	
21	<i>Linaria cymbalaria</i> ...	XI. Sherfield	
22	<i>Linaria repens</i> ...	VII. 2. Chandler's Ford	
23	<i>Veronica officinalis</i> ...	IV. I. N. Wight. Alum Bay	
24	<i>Melampyrum cristatum</i> ...	VII. I. Near Stratton	
25	<i>Anagallis cærulæa</i> ...	VII. I. Preston Candover (one specimen)	T
26	<i>Lithospermum officinalis</i> ...	IV. I. N. Wight. Colwell	
27	<i>Thesium humifusum</i> ...	VII. I. Northington Down. "Found once on some high downs between Old Alresford and Stratton (1825); W. Pamplin MS." (Townsend)	
28	<i>Daphne laureola</i> ...	VII. I. Dundry, Chilton Candover	
29	<i>Butomus umbellatus</i> ...	XI. Sherfield	
30	<i>Habenaria viridis</i> ...	VII. I. Abbotstone Down	
31	<i>Aceras Anthropophora</i> ...	IV. 3. Wight, Gatcombe Park	
32	<i>Herminium monorchis</i> ...	XI. Sherfield	
33	<i>Neottia Nidus-avis</i> ...	VI. I. Blackwood, Stratton	
34	<i>Galanthus nivalis</i> ...	VII. I. Ellisfield	
35	* <i>Gagea lutea</i> ...	VII. I. Near Moundesmere, Preston Candover	T

* Indicates new county record.
